EDUCATION

- **High School Diploma in Computer Science**

  Colegio Ing. Tomas Guardia
  (2020-2022)

- **Software Engineering**

  Technological University of Panama(2023-present)

ABOUT ME

Passionate about technology and programming, I have 19 years old, I began my journey into the programming world at the age of 16, exploring initial projects involving HTML and CSS.

This early experience ignited my passion for technology and programming, leading me to develop more complex projects. Currently, I am pursuing a degree in Systems Engineering at the Technological University of Panama (UTP), where I continue to expand my knowledge and skills.

My focus is on furthering my learning of new technologies and developing innovative projects, with the goal of delving into mobile application development and exploring the fascinating world of Machine Learning.

WORK EXPERIENCE

- **Customer service representative**

  Alorica (2023-2024)
  First formal work experience at Alorica, with the role of customer representative in a project called verizon
